ELEMENTS

SILVER

Natural Wonders Collection

Effortlessly feminine designs inspired by magnificent, natural wonders of the world; form the new sterling silver collection. Elements Silver celebrates our beautiful planet; and the importance of caring for our natural landscapes is intertwined in the design of each piece.

The new collection takes us all around the world with profiles inspired by different countries, from Bali's bohemian influence to Colombian filigree styles. We take you to the deep waters of Queensland with pieces emanating the magical colours of coral reefs; and dainty designs of sea creatures that live free in these spaces. Beautiful bamboo inspired details and organic pebble shapes also make a new statement within our plain silver selection, while mesmerising Swarovski® crystals in new darker hues; remind us of natural light displays in the polar regions.

CORAL

Semi-Precious and Pearl

A collection of delicate semi-precious jewels emanating the magical colours of coral reefs around the world. Organic shapes, coral like claw settings and pretty freshwater pearls add to natural feel of these lines, with a nod to the wondrous Great Barrier Reef.
