#ONEFORMEONEFORYOU

COMPOSABLE, CREATE YOUR BRACELET LINK BY LINK

NEW FW2021

#ONEFORMEONEFORYOU

COMPOSABLE, CREATE YOUR BRACELET LINK BY LINK

One you choose for yourself the other, for who you love. One is a present from the person who shares your dreams, the other, a gift to make someone smile. The Links in the Composable Collection are small and precious elements you can gift, exchange and share. Month by month, Link by Link your bracelet tells of the adventures you've shared so you can keep them with you always.

THE ORIGINAL

THE BRACELET THAT HAS WON THE HEARTS OF MILLIONS

After its debut in the 1980's the Composable bracelet became a contemporary symbol of Italian excellence and artisan craftsmanship. An Italian style icon which, thanks to its innovative design and irresistible precious charms, has won the hearts of millions of jewellery lovers around the world. The ingenious spring mechanism hidden inside each Link allows you to personalise your bracelet Link by Link, creating and re-creating your bracelet as often as you like.

TRADEMARKED NOMINATION® TO GUARANTEE AUTHENTICITY

COMPOSABLE, CREATE YOUR BRACELET LINK BY LINK

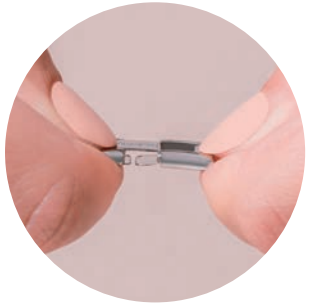

Classicgold Rosegold Silvershine

Explore the infinite combinations of Classicgold, Rosegold and Silvershine Links, decorated with enamel, precious stones and cubic zirconia.

A SIMPLE GESTURE AND YOU CAN CREATE YOUR BRACELET

Clip together the Links using the exclusive and original spring mechanism hidden in each Link. Use the Composable Key to re-create your bracelet by inserting new Links.

ITALIAN STYLE

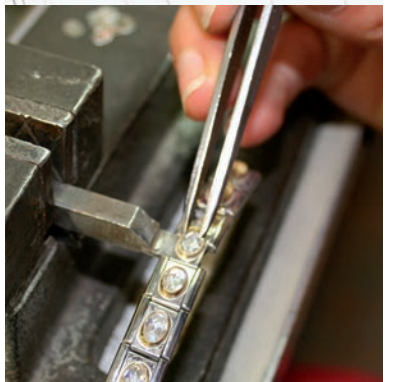

MADE IN ITALY

ORIGINALITY, QUALITY AND ITALIAN PERFECTION
GIVE LIFE TO UNIQUE JEWELS DESIGNED
FOR EVERY STYLE AND TASTE.

Nomination's Composable Collection is designed, created and produced in Florence, Tuscany. The company draws upon the rich Florentine goldsmith traditions and modern technological manufacturing techniques to produce its collections of precious jewellery. NOMINATION uses stainless steel of the highest quality, a collection common denominator it is hypoallergenic and does not tarnish. It's shiny silver finish provides an elegant yet refined look which enhances the precious nature of the decorative details in Bonded gold, Bonded rose gold and sterling silver, as well as other precious materials: natural hard stones, precious and semiprecious stones. All the materials Nomination uses are carefully selected and treated in such a way as to always guarantee the best quality jewellery with a distinct Italian style.

WARRANTY

Original Nomination items are guaranteed by the Nomination logo present on each item. This product is original and is guaranteed by the Nomination logo visible on each individual item. The Customer Assistance service is handled exclusively by Nomination in Italy. The product warranty is valid for 2 years from the date of purchase, according to the terms stated on the Warranty Certificate provided with every product. The Warranty text can be viewed online at www.nomination.com. The Composable collection is designed and produced in Italy. The watch and watch case of the Time Collection Paris watches, are designed in Italy and produced in P.R.C.

STAINLESS STEEL

Nomination uses only the highest quality stainless steel (304 or 316). Stainless steel is incredibly strong and resistant, it does not tarnish and it is hypoallergenic. It was not traditionally used to create jewellery as it is not malleable like gold and silver, however once created your stainless steel jewellery is designed to resist the test of time even if you wear it everyday.

CLASSICGOLD & ROSEGOLD

Precious metal par excellence, its timeless appeal and high market value make gold as irrestible as ever. Nomination uses Bonded yellow gold in the Classicgold Collection Decorated Links and Bonded rose gold in the Rosegold Collection Decorated Links.

SILVERSHINE

Nomination uses only the finest quality hypoallergenic sterling silver, treated with various finishes, in the Silvershine Collection of Decorated Links. Rhodium and platinum are used to prevent tarnishing and maintain shine, other symbols are oxidised to achieve a vintage effect.

GEMSTONES

Nomination uses a wide variety of precious and semiprecious gemstones as well as Cubic Zirconia, synthetic stones, layered stones, crystals and simulated pearls. All our stones are carefully selected, however natural stones vary in colour and may display some of their natural characteristics: inclusions, streaks, veining. These features are to be expected in natural stones and are not to be considered imperfections.

ENAMEL

Nomination uses coloured enamel to highlight and enhance decorative details. Enamel details are painted by hand. Enamel details are resistant to water but may be damaged by corrosive substances. Enamel should be regarded as a fragile material as a violent blow may cause the enamel to crack and the colour to be disturbed.

STORAGE & CLEANING

To avoid damaging gemstones and scatching your jewellery store them in a jewellery box with separate compartments or in soft pouches. Remember to remove your jewellery before applying perfumes, skin creams, suntan lotion or oils of any kind. Never wear your jewellery when working with detergents, bleaches, ammonia or alcohols; these chemicals will cause discoloration, damage and loosen stone settings. To clean sterling silver or Bonded gold jewellery use a dry, soft clean cloth to wipe them clean or a special jewellery polishing cloth. Do not use brushes of any kind as these may scratch your jewellery.
To clean stainless steel jewellery use warm soapy water and a soft toothbrush.
